1/21/71

Dear Bud and Jim,

I'm preparing what I will need and use to answer the motion to dismiss Werdig just filed by taking one thing at a time. The easiest to dispose of is whether the Archives is suable, and I think while I have no objection to dropping them, what I already have is quite significant in its potential effect on a judge's thinking and attitude. For this and other purposes, what they filed in Nichols' suit is very helpfu, as is anything they have done anywhere, anytime.

The second suit, T-4761, 1970, I have these government papers:

Reply to Plaintiff's memorandum brief;
Their motion to dismiss or for summary judgment. This has attachments.

If there are any other such papers, I'd appreciate copies.

Thanks,
HW
